contribution of renwables, namely, solar, wind, biomass and small hydro by meeting minimum rural energy needs; providing decentralised/off-grid supply for agriculture, industry, commercial and household sectors in rural and urban areas; and grid quality power generation and supply. A target of 10,000 MW of renewable power generation is envisaged for the year 2012. The draft of the Policy Statement has been submitted by the Ministry for further approvals.

(f) The higher capital requirements will have to be met through increased Central budgetary support; matching allocations in State Plans; and, private investments, supported by lending from financial institutions.

Clearance to Private Power Projects

420. SHRI R.S. GAVAI: Will the Minister of POWER be pleased to state:

(a) whether Government have reviewed the progress of private power projects;

(b) if so, its outcome in relation to power shortage in the country;

(c) the details of the private projects cleared by Central Electricity Authority for setting up of power projects, location-wise; and

(d) how many out of the above are able to commission their project?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA): (a) Government of India (Ministry of Power), is presently monitoring the progress of private sector power projects requiring the concurrence of the Central Electricity Authority (CEA).

(b) As per available information, 24 private sector power projects, having a total installed capacity of around 5000 MW, have already been commissioned, which includes projects not requiring the concurrence of CEA. Nineteen projects having a capacity of around 5300 MW are presently under construction.

(c) and (d) Till date, a total of 57 private sector power projects have been accorded techno-economic clearance by the CEA. The requisite details are given in statement. Out of these, 9 projects having a total capacity of around 3200 MW, have been commissioned so far.

Statement

Power projects accorded techno-economic clearance by Central Electricity Authority.

FDI for power projects

421. SHRI V. P. DURAISAMY: Will the Minister of POWER be pleased to state:

(a) whether Government are planning to remove all restrictions on foreign direct investment in power generation, transmission and distribution projects all over the country in general and particularly in Tamil Nadu;

(b) whether Government are also clearing decks for 100 per cent foreign equity in large power projects; and

(c) how many large power projects have been cleared in Tamil Nadu with 100 per cent foreign equity?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA): (a) and (b) Keeping in view the growing demand for power in the country and the need for more investment in this sector, the Government of India, as part of further liberalisation of the Foreign Direct Investment regime, has on June 12, 2000, decided to remove the upper limit for foreign direct investment in respect of projects relating to electric generation, transmission and distribution (other than atomic reactor power plants). This decision is applicable to all the States in India, including Tamil Nadu.

(c) Central Electricity Authority has accorded techno-economic clearance to 1 coal based Thermal Power Project in Tamil Nadu involving 100% foreign equity.
